

At Melton Design Build, we specialize in converting our client's dreams into reality with our award-winning residential design and construction services. If you'd like a rewarding position with an organization who promotes a strong work-life balance, respect among its employees, an excellent benefits package (including 100% paid health insurance), and is a fun place to work, we'd love to talk to you!

WHO WE ARE:

Based in Boulder, Colorado, Melton Design Build is one of the top Design Build firms in the country. With a focus on having ecstatic clients and happy employees, we have made it possible for hundreds of Boulder County residents to enjoy well-designed homes that complement their lifestyles.

HOW YOU CAN HELP:

The **Lead Architect** is an essential part of our design team. This talented individual is passionate about design and has experience with high-end residential projects and detailing. In this role you will influence and further develop the firm's design philosophy, while taking the lead on the design of remodels, additions, new homes, and commercial tenant finishes. About 85% of the work is residential and 15% is commercial. The Lead Architect should enjoy seeing their designs take shape from inception to fully constructed projects.

WHAT YOU WILL NEED:

- Excellent verbal and written communication skills
- Excellent organization & follow through
- Bachelors Degree in Architecture
- Current Architecture License is required
- Strong knowledge of the construction process and methods
- Revit 3D modeling, drafting, and rendering skills are preferred
- Knowledge of local and national building codes, and the Boulder permitting process, is a plus.
