This person is responsible for fully designing kitchens, baths, and other general space planning, including finish selections and specifications. In this role the designer also works closely with our other teams: thorough communication is essential.

## WHAT YOU WILL NEED:

- Degree in Interior Design or Architecture
- 2+ years experience with space planning, schematic design, design development, and construction document drawings
- 2+ Years of experience designing kitchen and bath remodels
- 2+ Years experience with Revit (interior elevations, finish schedules, etc.)
- Rendering skills are a strong plus
- Estimating & budget management experience are a strong plus.
- Experience with Photoshop and PowerPoint
- Excellent verbal, written, & listening communication skills
- Excellent organization & follow through
